COBIT® 5 Foundation

Introduction

The COBIT® 5 Foundation course is an interactive, classroom-based learning experience. Participants learn about the need for an IT governance framework and how COBIT addresses this need by providing the latest insights into enterprise-wide governance of IT.

This course explains the elements and supporting materials of the COBIT framework, using a logical and example-driven approach for anyone interested in obtaining COBIT foundation level knowledge.

COBIT 5 Foundation is the first step to enrol into COBIT 5 Implementation and COBIT 5 Assessor. The COBIT 5 Foundation exam is a prerequisite to attaining the COBIT 5 Implementation and COBIT 5 Assessor exams.

Target Audience

This course is developed for anyone interested in obtaining a foundation-level knowledge of COBIT. This course explains the COBIT Framework and supporting materials in a logical and example-driven approach.
